## ***Aedipar*** <sup>®</sup> ***The secret of the forbidden valley***

*An island in the open sea, a forbidden valley, a big secret, almost unbearable smells, especially when violent storms cross the island, a group of curious young bears, so many questions: What happened there? What is the reason for the ban? Why is no bear allowed to enter this mysterious valley? Can the wise bear "silver hair" help the young bear? How could all this happen? Why has nobody been interested in the secret of the forbidden valley? Will the council of elders listen to the young bear? Or do the young bears have to solve the problem alone? An important meeting of the young bears, a clarifying conversation, a common plan and a big decision: the young bears want to save the forbidden valley themselves! Will they succeed? Will the old bears help them after all? Will it end well? An exciting story with hopefully good results, told by the seagull Aedipar <sup>®</sup>.*
